

BRYAN RICE

Another Piece Of Me

BREATHING

It's cold and I'm frozen
I'm here again on my own
So I keep on fighting
but the sea let's me sink like a stone

Even love has a dark side
you pray and you hope it won't show
And every time I'm in balance
you keep pushing me out of control

So pull me back into the light
where my shield's up high

'Cause I'm still breathing
I'm still breathing
I'm still breathing

I'm still breathing
.....

Oh, felt god in my bedroom
the night that we spoke on the phone
He flew out through the window
along with my heart and my soul

Pull me back into the light
where my shield is up high

'Cause I'm still breathing
I'm still breathing
I'm still breathing

I'm still breathing
.....

And my love is alive,
I won't let it die for nothing
No it won't get me down,
'cause I'm still breathing
Yeah...

I'm still breathing
.....

Oh, it's cold and I'm frozen...

THERE FOR YOU

With no one to hold on to
you hit the ground
Searching for someplace to run to
You fell out of existence,
you got lost in the crowd
Always your back against the wall

I'll turn your life around
Into something good

Don't face this world alone
'cause I'm there for you my love
You will find me in the mirror
waiting for you
Oh baby, hold on, we'll make it

You cover the bruises
the best way you can
Hiding your flaws in the dark
Desperately seeking to understand
why everything is falling apart

But don't you worry now
I'll do anything to pull you out
And turn your life around
into something good

Don't face this world alone
'cause I'm there for you my love
You will find me in the mirror
waiting for you
Oh baby, hold on, we'll make it

I'll turn your life around...yeah

Don't face this world alone
'cause I'm there for you my love
You will find me in the mirror
waiting for you
Oh baby, hold on, we'll make it

THE RIDDLE

So distant and so close
Where your heart is no one knows
It's a puzzle in my head
of all the things you've said
I wonder if I'm ever gonna get through

You are a question that needs an answer
You're an equation that makes my head hurt
That's you - I can't figure you out
You're the riddle
Numbers without any real solution
Figures without any explanation
I can't do - I don't get you, oh no
'Cause you're the riddle -
I'm stuck in the middle - You're the riddle, yeah

I'm searching just to find the treasures that
you hide
All the secrets, I don't know -
How can I crack the code?
I wonder if I'm ever gonna get through

You are a question that needs an answer
You're an equation that makes my head hurt
That's you - I can't figure you out
You're the riddle

.....

You are a question that needs an answer
You're an equation that makes my head hurt
That's you - I can't figure you out
You're the riddle

You're the riddle...

All the questions that needs some answers
The hard equations that bring you closer
That's you - I can't figure you out -
'cause you're the riddle
All the numbers without solution
Figures without any explanation
I can't do - I don't get you, oh no
You're the riddle

You're the riddle

.....

CURTAIN CALL

Try to convince me we will be OK
And I'll believe in every word you say
Soon you'll be gone,
you got me hanging on
Don't wanna say, wanna say,
say goodbye

I don't want you to go
please just stay, stay right here
Time is running out for us now
Listen here

Whenever the sky is breaking
Your heart is ready for the taking
Remember what I tell you now
Remember how we're feeling
right this moment

Nothing in this world can stop me
I'm with you in every heartbeat
Remember we had it all
Before the curtain call

Before the curtain call

It's been so long since
you've been here with me
The fact we're apart is killing me
I'll count the minutes
fill you're at the door
Tick tock, tick tock in my head

I can't wait to see you again
- Meant to be
Such a big mistake
Want you back here with me

Whenever the sky is breaking
Your heart is ready for the taking
.....

If the sky should fall
would you be there for me?
At the curtain call
will you think of me?
Up against the wall
I know we're meant to be
At the curtain call
you can count on me
If the sky should fall
.....

Will you think of me?

Whenever the sky is breaking
Your heart is ready for the taking
.....

Before the curtain call

EVERY DAY IN BETWEEN

When we touch
I have never known that spark
Never felt like this before
It's a different life
I hold you in my heart

Can you feel
how the rhythm of my soul
is out of sync every time you go?
You're my reason why
Now
Forever

In the stone cold winter in the storm of love
When it makes you pray for a miracle
I am still here to promise to have and to hold
You know I'm gonna love you
Every day in between
Every day in between

What if I
would have never crossed your street
and allowed our eyes to meet?
Would I ever make it through
here without you?

I see tomorrow through your eyes
And I will never say goodbye
Nothing else can bring us out
Now
Forever

In the stone cold winter in the storm of love
When it makes you pray for a miracle
.....

Like the diamonds in the sky
Telling me no lies
I'm gonna love you

In the stone cold winter in the storm of love
When it makes you pray for a miracle
.....

Every day in between
I'm gonna love you

ALL I HAVE

I did not feel a thing
when you had to say goodbye
I was too proud to let it show

I know I made you think
That you were just a waste of time
Yeah, I hurt you deep within your soul

And I
I know you don't think I care about you

But I do miss you and that's the truth
'Cause no-one can replace you
I need you by my side
Yeah, I'm down and lost when you're not around
And my love is running out
I'll give you all I have

It's only right to say
What your heart believe is true
Well I buried mine deep in the ground

And my head was out of place
And I found it hard to bruise
Yeah, my words could only bring you down

And I
I know you don't think I care about you

But I do miss you and that's the truth
'Cause no one can replace you
.....

So please give me a chance to say I'm sorry now
Sorry now

Yeah, I do miss you and that's the truth
Cause no one can replace you
I need you by my side

Yeah, I'm down and lost when you're not around
And my love is running out

I'll give you all I have
All I have, yeah...
I need you by my side...

MAKE THE MOMENT LAST

What if I hold you a little too tightly,
would you just run away?
And what if I told you,
when you lay beside me,
I feel like I never felt 'till today?
And now I know,
I'll never let go

If we can make this moment last
If we can learn from the past,
we can make it, we can make it through
That's the way life should be
Me and you, you and me
We can make it, make the moment last

What if I told you
that you are my lifelong,
would you think I'm a fool?
I'm scared you'd go colder
and turn out the light on this love
- say it's too much too soon
But now I know..
we cannot let go

If we can make this moment last
If we can learn from the past,
.....

Oh, make the moment last
Baby, let's make the moment last

And I don't wanna play
I don't wanna play the games that others do, 'cause that
suit my style
I just got to say, I just got to say whatever's on my mind
and you're the one on my mind, baby

If we can make this moment last
If we can learn from the past,
.....

Yeah, make the moment last
Baby, let's make the moment last
Make the moment last
Baby, we can make the moment last...

THINGS THAT LOVERS DO

Looking for a bigger picture through a keyhole
Looking for a soul to squeeze and hands to hold
To hold you
I should be there
It's not that I don't care
I care
I care

The time is right
Tonight is for you
and for things that lovers do
The time is right
Tonight is for you
and for things that lovers do

Pouring feelings through the eyes of broken needles
There's so much I hold inside to be set free
So near me
You should be here
It's not that I don't care
I swear
I care

The time is right
Tonight is for you
and for things that lovers do
The time is right
Tonight is for you
and for things that lovers do

Waiting for the right time to come
while it slips away
Kiss me like there's no tomorrow
Kiss me for today

The time is right
Tonight is for you
and for things that lovers do
The time is right
Tonight is for you
and for things that lovers do
that lovers do
that lovers do

LIVE TO LOVE ANOTHER DAY

Hurtful words in the air
We're not seeing clear
And I don't remember how we ended here

You hear things I don't say
And it's getting late
It really isn't how we should communicate

Our happiness can be so fragile
And there's so much to lose

We can't stop the clock
but we can wait
Before all we've got
goes to waste
And it's hard to forget
when the words have been said
But if we walk away
we'll live to love another day

Just a step from the edge
but I won't look down
You can go so far that you can't turn around

You say that you're confused
and the ground beneath us burn
We're getting closer to the point of no return

Before we jump to bad conclusions
remember we've got everything to lose

We can't stop the clock
but we can wait

.....

Count to ten
Look into my eyes once again
We'll live the future from today
From today...

Before we jump to bad conclusions
remember we've got everything to lose

We can't stop the clock
but we can wait

Before all we've got
goes to waste

.....

WATCH THE STARS

If it wasn't for love
tell me where would we be?
If it wasn't for you
it wouldn't make sense to me
Too look up in the sky
it wouldn't make me smile
If it wasn't for you
I wouldn't wanna waste my time

And if I had to sleep without dreaming
I'd rather stay awake all night
You're the only one I believe in
And you know

It doesn't matter where we are
close together, far apart
I wanna know that every time I look up
you do the same
It's connecting me to you
and no matter what we do
there is no one else I'd rather
there is no one else I'd rather watch the stars with
watch the stars with
.....
There is no one else I'd rather watch the stars with...

I really need to know
if you're there tonight
'Cause you're the only one
who can turn the wrongs to right
And when my world is falling

Are you there before I hit the ground?
Tell me with your eyes will you stay with me?
Are you gonna stick around?
You gonna stick around

And if you had to sleep without dreaming
would you stay awake all night?
Am I the only one you believe in
and do you know?

It doesn't matter where we are
close together, far apart
.....

Wherever you are, take a look at the stars
you know that you got me

Wherever you are, take a look at the stars
you know that you got me, oh...

It doesn't matter where we are...
It doesn't matter...

It doesn't matter where we are
close together, far apart
.....

ANY PASSION WILL DO

Feeling lonesome
lying in your arms
So deserted when you're near me
there's a cause for alarm

Do you need a new try?
- show it to me
Hear me when I say
- I need you to be

Soul-shaking
Heartbreaking
Proving your love to me
Breath-taking
Lovemaking
Someone to hold on to
Any passion will do
Any passion will do

Empty faces
looks without a sign
What to do if
I want your eyes to shine?

I need to believe in
the heart that I see
Hear me when I say
- I need you to be

Soul-shaking
Heartbreaking
Proving your love to me
Breath-taking
Lovemaking
Someone to hold on to
Someone to hold on to

Any passion will do

Any passion will do...

Soul-shaking
Heartbreaking
Proving your love to me
Breath-taking
Lovemaking
Someone to hold on to...

Soul-shaking
Heartbreaking
Proving your love to me
Breath-taking
Lovemaking
Someone to hold on to
Soul-shaking
Heartbreaking
Proving your love to me
Breath-taking
Lovemaking
Someone to hold on to
Any passion will do
Any passion will do

DID THAT SMILE SEEM FAKE?

I have got to fight for this
struggle for a kiss
But you can do anything
I still feel the same

Even though I'm not to blame
I feel a sense of shame
I've always been true to you
but we're two in this game

I try to keep it up when you're gone
though I don't know how to hold on
no more
But did that smile seem fake?

Leave me out or let me in
I'll get under your skin
It's hard to come through to you
and the game that you play

Anyway you look at me
devotion's what you'll see
Just try to believe it's true
don't let love slip away

I try to keep it up when you're gone
though I don't know how to hold on
no more
But did that smile seem fake?
Did that smile seem fake?

You don't give more than you take
if what you give is false and fake
Then there's no need
to be strong anymore...

Did that smile seem fake?

I try to keep it up when you're gone
though I don't know how to hold on
no more
But did that smile seem fake?
- did that smile seem fake?
I try to keep it up when you're gone
though I don't know how to hold on
But did that smile seem fake?
- did that smile seem fake?

I know I have to fight for this
struggle for a kiss...

SECOND LAST CHANCE

You're a big girl now
And responsible
for all the things you've got
and all the things you know
And for everything you don't
well, you'll find out eventually

You think you know it all
when you really don't
Just live the dream you dream
But somehow you won't
Then you're trying just too hard
You gotta learn it naturally
What's meant to be is meant to be

So if you're down on your luck,
then you build it up
There's only one thing to do
when there's not enough
Don't turn around now
give yourself another second last chance
second last chance
When you're down on your luck,
then you build it up
There's only one thing to do
when there's not enough
Don't turn around now
give yourself another chance

Empty or full
your cup is always there
You're trying to fill it up
but there's a leak somewhere
Don't you throw it all away
Relax and count from one to ten
Fix it up and try again

So if you're down on your luck,
then you build it up
There's only one thing to do
when there's not enough
.....

Just give yourself another second last chance
You owe yourself another second last chance
You got to give yourself another second
second last chance
second last chance

So if you're down on your luck,
then you build it up
There's only one thing to do
when there's not enough
.....

You got to, you want to
you got to give yourself
Give yourself
You got to give yourself
A second last chance
second last chance
Hey...

CREDITS

Breathing

Peter Bjørnskov (Good Songs Publishing)
Produced and mixed by Oli Poulsen for Fix-n-Mix
Vocals: Bryan Rice
All instruments by Oli Poulsen
Additional Keyboards: Peter Bjørnskov
Backing Vocals: Bryan Rice and Maas Enggaard
Executive producer: Anders Hansen for Good Songs
(Song from "DMGP 2010", DR1)

THANK YOU

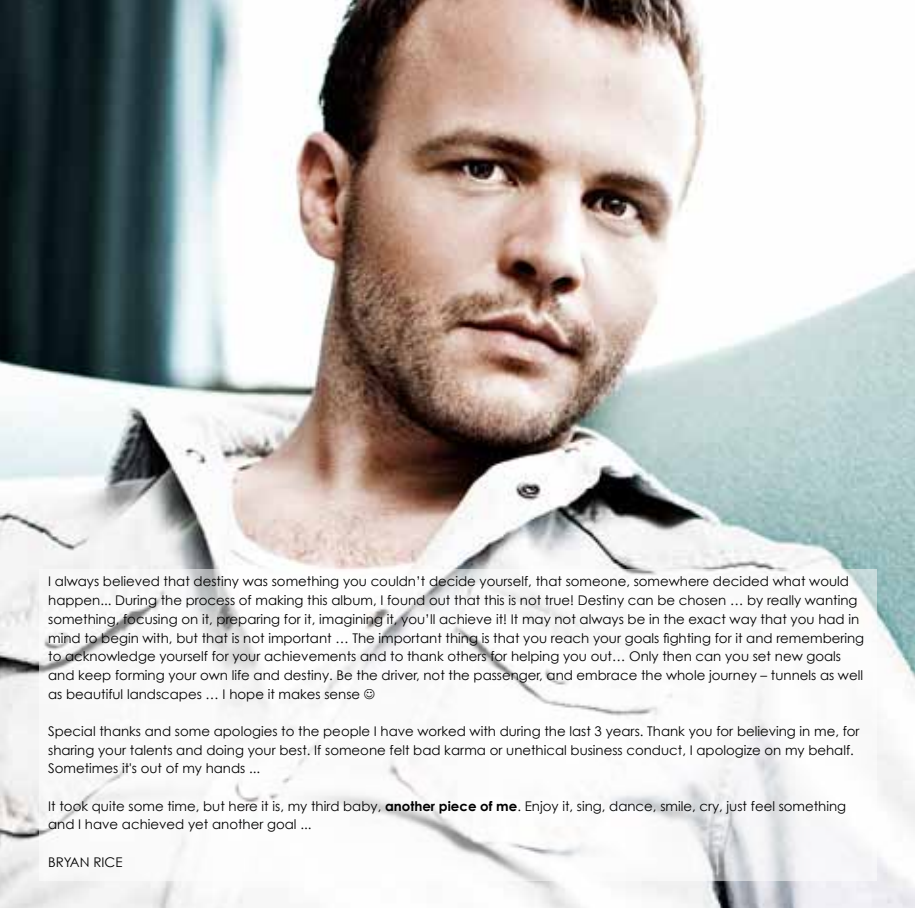

Anders Fredslund-Hansen (Good Songs Publishing) – for opportunities, believing in me and changing my mind. Marriane Cassandra Simonsen (uniqueartist.dk) – a simple "thank you" wouldn't do it, you've turned my whole world around. Michael Guldammer, Jeasper Krøll & Trine Galst (Border Breakers) – for fighting, leading on and letting go ... DRs DMGP10 people – for giving me something to remember. Cecilie Stenspil, Kasper Vejlbj Kristensen (Video, eyelight.dk), Nicolas Tobias Følsgaard (Photo), Mette Thorsgaard Thomsen (hair, love and makeup), Cha Cha Cha, Daniel Jonsson (G-Star Raw), Hummel, Diesel, Jens Mathiesen (Scandic Hotels), Red Cross Denmark, Plan Danmark, WWF, DAF, Emilia Ryaberg, Julie Berthelsen - what a beautiful person and voice, I am honoured to sing with you.... All Danish radio stations – I really appreciate how you receive me and my work.

Far John, Mor Dorrit, Nils, Søs – My love to you is endless. You're always there for me, and you make me believe in myself. Family stands above everything. Mabs - Opopoi ... Farmor – I miss you, I dedicate this to you, hoping you'll hear my singing up there ... My wonderful family – cousins and their families, aunts & uncles, in-laws, your support is very important to me. Friends – Old and new, I am blessed with the best!

RecArt Entertainment, MBO, Jimmi Riise & Tanya Friis – If "meant to be" really exists, this must be it! My deepest respect for your work and your ways. Thank you for believing, listening and letting me do what I love the most. Rikke Andersen, Charlotte Nisted, Lasse Lauridsen – for your hard and passionate work.

Harry Sommerdahl – no music making without you ... thanks for endless understanding and great fun. Peter Bjørnskov – I'm not sure you know what you're giving me as an artist, but it's great! Boe Larsen, Mads Haugaard, Martin Larsson, Oli Poulsen, Jukka Immonen, Mathias Ramson og Brix, Valicon, BR Band & Crew (Theis, Hans, Peter, Per, Anders, David, Jacob and all "stand-ins").

Fans and supporters everywhere – I wouldn't still be doing this if it wasn't for you, Thank you!

I always believed that destiny was something you couldn't decide yourself, that someone, somewhere decided what would happen... During the process of making this album, I found out that this is not true! Destiny can be chosen ... by really wanting something, focusing on it, preparing for it, imagining it, you'll achieve it! It may not always be in the exact way that you had in mind to begin with, but that is not important ... The important thing is that you reach your goals fighting for it and remembering to acknowledge yourself for your achievements and to thank others for helping you out... Only then can you set new goals and keep forming your own life and destiny. Be the driver, not the passenger, and embrace the whole journey – tunnels as well as beautiful landscapes ... I hope it makes sense ☺

Special thanks and some apologies to the people I have worked with during the last 3 years. Thank you for believing in me, for sharing your talents and doing your best. If someone felt bad karma or unethical business conduct, I apologize on my behalf. Sometimes it's out of my hands ...

It took quite some time, but here it is, my third baby, **another piece of me**. Enjoy it, sing, dance, smile, cry, just feel something and I have achieved yet another goal ...

BRYAN RICE
